

FA Football Experience's Risk Assessment

Event Name:	Ultimate Football Experience Football Experience Futsal Experience Track and Hydrotherapy Bolt-on
Location Address:	St Georges Park, Newborough Road, Needwood, Burton Upon Trent, Staffordshire. DE13 9PD
Venue:	Futsal Hall Artificial Pitches 3G – Indoor/Outdoor Sprint Lanes and Hydrotherapy

Details of Activity:	FA employed coaches will deliver the packages listed above. These packages contain football coaching sessions on an indoor or Outdoor 3G pitch, a Fifa 11+ warm up session and dynamic movement session along with a Hydrotherapy recovery session
-----------------------------	--

Emergency Arrangements:	
First Aid:	First Aid cover is provided by the Football Coach delivering the session.
Any person discovering a fire:	Activate the nearest break glass call point and exit the building via the nearest and safest fire exit.
On hearing the fire alarm:	The emergency alarm is siren. Upon hearing this all attendees should leave the building by the nearest available exit and proceed to the assembly point.
Who will call for the Fire & Rescue service if needed:	ADT / Incident Support Team
Location of Assembly Point:	National Football Centre Car Park.

Nearest Emergency Services:	
Queens Hospital, Burton Upon Trent.	Belvedere Rd, Burton-on-Trent DE13 0RB

Introduction

These Risk Assessments have been drawn up in accordance with the *Management of Health and Safety at Work Regulations 1999* to identify the significant hazards presented during the event and to describe how the risks arising from such hazards will be controlled.

This document is an over-arching accompaniment to the activity specific risk assessments provided by contractors to the production: it is not exhaustive. This assessment identifies areas of interaction between contractors and indicates how general control measures will be implemented.

The process of risk assessment is on-going, with dynamic assessments being conducted by competent staff throughout the event. It is possible that the assessments in this document may be amended or augmented as new risks are identified or more refined control systems developed.

Risk Rating

Each assessment identifies two risk ratings; the initial risk which assesses the hazard without any design, engineering or management controls in place.

The residual rating gives an indication of the resulting level of danger once all the controls identified have been implemented. For ease of reading these assessments have not utilised on simple grading of risk from high to negligible.

The risk rating has been drawn from the following table:

Likelihood (L)	1 – Very Unlikely	2 - Unlikely	3 – May Occur	4 - Likely	5 – Very Likely	6 – Will Occur
Severity (S)	1 – Very Minor Injury	2 – Minor Injury	3 – Lost Time	4 – Major Injury	5 - Fatality	6 – Multiple Fatalities
Risk Factor (LxS)	0-6 = LOW No Action Required		7–17 = MEDIUM Some Action Required		18-36 = HIGH Immediate Action & Further Controls Required	

Contents

Emergency Arrangements	1
Introduction and Risk Rating	2
Risk Assessment	3

FA Group Event Risk Assessment

Task or Activity:	Visitors participating in Physical activity		
Hazards:	Sporting injuries, slips trips and falls.		
Likelihood:	3 – May Occur	Severity:	4 – Major Injury
Persons at Risk:	Employees, delegates.		
Initial Risk Rating:	12 – Medium		
Existing Controls:			
<ul style="list-style-type: none"> • Designated, purpose built facilities. • Appropriately qualified coaches delivering the experience's • Coaches are qualified First Aiders 			
Further Action Required:			
<ul style="list-style-type: none"> • Supervision at all times by trained coaches. • All delegates to wear appropriate footwear. 			
Residual Risk Rating:	8 - Medium (2x4)		

FA Group Event Risk Assessment

Task or Activity:	Large Groups taking part in Physical activity		
Hazards:	Injuries through lack of appropriate supervision		
Likelihood:	3 – May Occur	Severity:	3 – Lost Time
Persons at Risk:	Employees, Public.		
Initial Risk Rating:	9 - Medium		
Existing Controls:			
<ul style="list-style-type: none"> • A supervision ratio of 1 coach to 16 participants is enforced. 			
Further Action Required:			
<ul style="list-style-type: none"> • The size of the group will be confirmed with the sales team and the appropriate number of staff booked to deliver the session. 			
Residual Risk Rating:	3 - Low (1x3)		

FA Group Event Risk Assessment

Task or Activity:	Participants taking part in physical activity		
Hazards:	Exaggeration of pre-existing medical injury		
Likelihood:	4 - Likely	Severity:	5 - Fatality
Persons at Risk:	Employees, Public.		
Initial Risk Rating:	20 - High		
Existing Controls:			
<ul style="list-style-type: none"> • Coaches to verbally confirm with the leader of the group if there are any pre-existing medical conditions. • It is the responsibility of the lead person of the group to highlight any pre-existing medical conditions that may be affected by participating in physical activity. • It is the responsibility of all participants to ensure that any medicines that they may require (e.g. asthma inhalers/epi-pens) are carried with them or are in close proximity of the area in which they are taking part in activities. • Coaches to ensure that they have the ability to summons emergency assistance dependant on their location on site. 			
Further Action Required:			
<ul style="list-style-type: none"> • Coaches to highlight where the nearest emergency medical equipment is located. 			
Residual Risk Rating:	6 - Low (2x3)		

FA Group Event Risk Assessment

Task or Activity:	Physical Activity on Outdoor Pitches		
Hazards:	Adverse Weather		
Likelihood:	3 – May Occur	Severity:	3 – Lost Time
Persons at Risk:	Employees, Public.		
Initial Risk Rating:	9 - Medium		
Existing Controls:			
<ul style="list-style-type: none"> • Adverse Weather Conditions (SGP Grounds) Procedure to be followed. • SGP Operations Manager to consider all available weather information, whenever possible alternatives will be arranged. 			
Further Action Required:			
<ul style="list-style-type: none"> • SGP General Manager to make the final decision regarding whether outside fixtures/play should be halted as a result of weather conditions. 			
Residual Risk Rating:	6 – Medium (2x3)		

FA Group Event Risk Assessment

Task or Activity:	Use of the Hydrotherapy pools		
Hazards:	Risk of drowning, contraction of infection, risk of Hypothermia		
Likelihood:	4 - Likely	Severity:	5. Fatality
Persons at Risk:	Public		
Initial Risk Rating:	20 - High		
Existing Controls:			
<ul style="list-style-type: none"> • Under 12's are restricted from using the contrast pools (hot and cold) due to a higher risk of Hypothermia. • Supervision ratio of 1 coach to 16 participants • Maximum group size of 32 in the Hydrotherapy suite • At least one of the coaches or member of staff will hold a valid lifeguarding qualification or equivalent • Participants with open wounds will not be allowed into the Hydrotherapy pools because of the risk of infection. • All participants to follow the user guide for Hydrotherapy. (This document is available upon request). 			
Further Action Required:			
<ul style="list-style-type: none"> • Ensure coaches highlight the user guide to all participants before a Hydrotherapy session. 			
Residual Risk Rating:	5 -Low (1x5)
